This Educational Event is Dedicated to the Memory of Barbara Dein

Educational Objectives:

By the end of this presentation, the participants should be able to:

1. Understand and recognize the motor and non-motor symptoms of Parkinson’s disease in order to make an earlier diagnosis or refer to a specialist.
2. Understand the various treatment options for Parkinson’s disease for optimal symptom management.
3. Understand why an individual with Parkinson’s disease would be a candidate for Deep Brain Stimulation and the benefits of this procedure.

The planners and speakers for this activity disclosed no financial relationships with commercial interests whose products or services have a direct bearing on the subject matter of these presentations.

Target Audience:

All interested healthcare professionals.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the Florida Medical Association and (name of non-accredited provider).
